Research Vacation Scholarships 2012

Break away from the crowd this summer!

Projects available in the Centre for Comparative Water Policies and Laws

OPTIMAL WATER SUPPLY SOURCES FOR RESILIENT URBAN AND REMOTE COMMUNITIES - A REVIEW OF CURRENT AUSTRALIAN AND INTERNATIONAL GOVERNANCE ARRANGEMENTS AND SUGGESTIONS FOR LAW REFORMS TO PROMOTE RESILIENCE IN AUSTRALIAN ARRANGEMENTS

This is a governance business law study, but driven by needs of governments and industry. This project aims to understand the social context of water supply through desalination and to devise acceptable institutional arrangements to promote resilience and make suggestions for the formation of desalination policy.
