

Physiotherapy

Francis Hardy

UniSA

Division of
Health Sciences

Health: the Inside View.

Bachelor of Physiotherapy (4 year undergraduate)

- Entry through SATAC
- TER 97.7

Masters of Physiotherapy (2 year post graduate)

- Entry through Apply Online
- Bachelor degree with GPA of 5.0 (credit average)
- Pre Reqs: Stats, Communication, Anatomy and Physiology

Industry demands for Physiotherapists are high.

As a Physiotherapist you can work in:

- Public and private hospitals
- Women's health services
- Private practice
- Community health centre's
- Day care centre's and nursing homes
- Sports centre's
- Factories and offices and
- Occupational health units

What does it take ?

Physiotherapists need:

- An ability to analyse and solve complex problems, to make decisions and act upon them
- Communication skills
- A genuine desire to assist unwell or injured people of all ages and backgrounds
- Manual dexterity

Student Registration

- Physiotherapy students need to register with the Physiotherapy Board of South Australia. Registration is free, and must be updated annually in order to take part in classes.
