PROGRAM DIRECTOR	Associate Professor David Bruce	EMAIL	david.bruce@unisa.edu.au		PHONE 8302-1856
PROGRAM SUPPORT STAFF				PHONE	8302-1142

DEFINITIONS:Area + Catalogue Number -

A 4-letter area code plus a 4-digit catalogue number make up the course code, eg **BIOL 1033**. You can search for courses by using this code.

Class Number -

Every class at UniSA has a unique number (e.g., **24813**). You use this number to enrol. Both the **enrolment class** and **related classes** have class numbers.

Enrolment Class -

This can be a **lecture (LEC)**, **tutorial (TUT)**, **workshop (WSH)** or **practical (PRA)**, to name a few examples. It is the first class you must enter when you are enrolling.

Related Classes -

(Non-Enrol Classes)

These are other required components of the course, and are in addition to the **enrolment class**. They can be one of the following class types - **lecture**, **tutorial**, **workshop** or **practical**, to name a few. In most instances you will have a choice (eg, 1 tutorial to be chosen from 7).

However, in some courses, once you select the **enrolment class** you are automatically enrolled (**Auto-enrol**) in a related class (eg. a particular tutorial or practical at a particular time). The class number will be listed in the Auto-enrol column.

Study Period	Area	Catalogue Number	Course	Location	Enrolment Class	Related Class	Related Class	Notes
