

Framework to Evaluate Individual Preferences and Collective Outcomes of Sustainable Water Institutions, Laws, and Policies

McKay, 2006. Adapted from text by Bickers and Williams, 2001. *Public Policy Analysis*; Houghton Muffin. Inspired by Daly and by adaptive management and the concept of strong sustainability.

Strong sustainability means that some things such as green plants, water cycles, and biodiversity are critical and must be retained at all costs. Daly and Cobb, 1989. *For the Common Good*; Beacon Press Boston.
