

Centre for
**Comparative Water
Policies and Laws**

You are cordially invited,

The University of South Australia through the Centre for Comparative Water Policies and Laws and the School of Commerce have the distinct honour and pleasure of being the hosts to.

Dr R N Yadava
Director Gr. Scientist and
Head of Resource Modelling & Design Division

Dr. Yadava will be giving a presentation including an overview of India's water resources and many of the issues that India is faced with in managing both their surface and ground water. The presentation will include details of current strategies targeting the highlighted problems. There will be an extensive opportunity for questions and answers and general dialogue.

About the Speaker: Master in Science from Banaras Hindu University, Ph.D. from IIT Bombay. Guided students for M.Tech. and Ph.D. Thesis. Executed large number of research projects in the area of water resources.

Awards: Received various fellowship, Raman Research Award in Hydrology, etc.

Publications: Published research papers in journals of International repute.

The Presentation will be given on
Friday, 12th of January, 2007
from 2:00pm – 4:00pm
Rowland Rees Building
RR5:09
UniSA, City West Campus
