Welcome

The University of South Australia is a young institution with an agile, innovative approach to educating tomorrow’s professionals and solving today’s challenges. As a University of Enterprise, our efforts are focused on providing economic and social benefits to local communities, the nation and the world.

While our focus is global, we are also very local. We have a deep and lasting commitment to the regions of South Australia because being the University of South Australia means being the university for all of South Australia.

We know that being close to home means a lot, so we have been making some major improvements to our regional campuses so that you get the same education as students at our city campuses.

We’ve built a new $12.5 million learning centre at Mount Gambier that will revolutionise your learning experience. The new building, opened in early 2016, has space for up to four times as many students and will open up opportunities for more UniSA programs to be offered in the region.

We have also installed high-speed fibre optic cables to Mount Gambier and Whyalla. This means getting internet speeds 1,000 times the rate you’re used to — from 10 megabits per second to 10 gigabits per second. This not only makes you the best connected students in any regional city in Australia, but also helps to bring our Digital Learning Strategy to life, blending online and face-to-face teaching so you get access to the same curriculum, the same resources and the same academics as those in the city.

Our reputation for excellence is continuing to grow. We have ongoing success in the QS global university rankings, and are SA’s number one university for graduate careers (QILT: Australian Graduate Survey – Graduate Destinations 2012 to 2014 Full-time Employment Indicator). We’re also number one in SA for student satisfaction (QILT: Course Experience Questionnaire 2013-2014 Overall Satisfaction item).

At the University of South Australia, you will discover a vibrant on-campus culture and join an active and diverse student population. This blend enriches the intellectual and social life of our academic community, providing both an enhanced student experience as well as the ideal teaching and learning environment for cultivating tomorrow’s leaders and innovators.

I hope that you will consider joining us and I look forward to seeing you on campus soon.

Professor David G. Lloyd
Vice Chancellor and President

Acknowledgement of Country

UniSA respects the Kaurna, Boandik and Barngarla peoples’ spiritual relationship with their country. We also acknowledge the diversity of Aboriginal peoples, past and present.

About this guide

Deciding to further your education is a big step, and it can make a big difference to your future.

Research indicates that one in two adults will be expected to have a university degree by the year 2025*, and that many of those people will have more than one degree qualification. Here at the University of South Australia we understand that it can be a daunting, but also exciting decision to further your education, and we invite you to join us.

This guide is for future students interested in studying in Whyalla, Mount Gambier or online from a regional area. It is also for those living regionally who would like to relocate to study at one of our Adelaide campuses.

Take some time to read through this key information to help you decide how and where you will study with us.

UniSA’s commitment to regional education

Distance is never an obstacle. We deliver quality education opportunities to all students – whether in a regional community or capital city.

As Australia’s University of Enterprise we’re committed to making big changes. With UniSA you’ll gain an education that cultivates a spirit of creativity and innovation, and equips you to be a leader of tomorrow. We create an environment for students to bring their ideas to life, engage with industry and conduct meaningful research. Together we develop solutions that benefit the community and the world.

Community engagement

We are a university for all South Australians, and welcome regional students from across the state and beyond. We are focused on developing genuine connections with regional Australia, and the cities of Whyalla and Mount Gambier. We embrace our local communities by partnering with different industries and supporting a wide range of events and initiatives.

Developing facilities and partnerships

We have invested around one billion dollars into our built environment, launching our new $12.5 million learning centre at Mount Gambier in 2016 to revolutionise the student learning experience.

Teaching and learning

We deliver a curriculum which is industry-influenced and sculpted by the partnerships UniSA has with regional groups and key South Australian organisations. A partnership with the James Morrison Academy of Music in Mount Gambier has defined the new home of jazz music education in Australia.

Improved connections

As part of UniSA’s Digital Learning Strategy, we have access to high-speed fibre optic cables at Mount Gambier and Whyalla. Expect internet speeds 1,000 times the rate of regular connections, allowing you to engage in a quality learning experience with resources as you need them.

Student experience

Support and scholarships are available for high achieving students, students in need, regional students or those who identify as Australian Aboriginal and Torres Strait Islander with some delivered through a partnership with Country Education Foundation of Australia (CEF).

We focus on student experience, with regional-specific transition programs, access to UniSA’s student association (USASA), and extensive support and employment services to help get your career started.

Study local, stay local

If you plan on working in regional South Australia, it makes sense to study there too. UniSA’s commitment to flexible program delivery, support services and partnerships with local industry means you can.

Flexible study experience

Our 24/7 online support, flexible study options, and blend of part-time and off-campus delivery modes will help you study in a way that suits you. A number of degrees including Foundation Studies, education streams, nursing and social work are offered on-campus at Whyalla and Mount Gambier. More than 80 per cent of UniSA’s programs have courses available for external study, so you could mix online study with courses delivered face-to-face.

Stay close to home

One benefit of studying externally or through a regional campus is you can live at home. Or, you can relocate closer to home. Whyalla has the advantage of student accommodation on campus, making it easier to relocate from anywhere. Nestled halfway between Adelaide and Melbourne, Mount Gambier is a popular choice for regional students in the south eastern states, with affordable accommodation and a relaxed lifestyle.
Support for the whole family, and you

The choice to further your education can impact not just your work, finances and social life, but often your family and friends.

UniSA offers guidance from enrolment, course planning and study habits; through to personal support services and counselling. Information is also available for parents, partners, family and friends to help support your transition into tertiary study. Download our Guide for Parents, Partners and Friends for more information.

Bringing education to you

For some students it’s difficult to attend a campus to study. That’s why over 80 per cent of the programs at UniSA offer external or partially-external courses. You can access the same curriculum in these external programs as you would if you were attending a class in person.

unisa.edu.au/onlinedegrees
Whyalla: education where the outback meets the sea

Study at the state’s largest regional university campus, in the dynamic coastal town of Whyalla on the Eyre Peninsula.

UniSA’s Whyalla campus is a significant part of the Whyalla community. The town prides itself on the wide variety of sporting pursuits on offer with local football and netball teams, through to fishing, kitesurfing or diving with cuttlefish. Situated between the rugged West Coast and the beauty of the Flinders Ranges, camping and road trips are easy.

Boasting excellent teaching and student facilities, the campus is based in the heart of Whyalla’s education and cultural precinct close to shopping, child care facilities and a busy main street.

“UniSA’s Whyalla campus is extremely significant in regional South Australia. We believe it is important to have an authentic connection with students and to encourage them to become work-ready graduates. Studying locally leads to a greater likelihood that students will endeavour to become leaders in our regional community.”

Paul Havelberg, Regional Manager, Whyalla

Students from Port Lincoln, Port Augusta, Port Pirie and other smaller towns nearby often choose to study in Whyalla to take advantage of the close proximity to existing work commitments and families.

You will have access to university resources such as Campus Central for all student administration, computer pools, student representatives and more.
Solid foundation for teaching

University was always part of the career plan for Kirsty Connor, but after high school, circumstances led her straight into full-time work. After 10 years, Kirsty decided it was time to start her university study, but felt she needed help with this new phase of her life. “I chose to study Foundations Studies because I had not studied in a very long time and I was concerned about studying at a university level, and all the aspects of academic writing. I wanted to enter a degree program with the confidence and understanding of university expectations.”

Now studying the Bachelor of Education (Primary) on campus at Whyalla, Kirsty is enjoying the smaller class sizes, close community feeling at UniSA, and calm lifestyle the town affords. She hopes to work in a school with students from disadvantaged backgrounds, and empower students to further their education.

Kirsty Connor
Bachelor of Education (Primary), Foundation Studies

What you can study

Programs offered at Whyalla reflect the needs and priorities of the regional community:

> UniSA Foundation Studies
> Education (Early Childhood)
> Education (Primary)
> Nursing
> Social Work
> Engineering *

For further program information please see page 21.

Whyalla campus can also support learning in other partially and fully-external programs offered at metropolitan campuses, including business, marketing, commerce, and information technology.

unisa.edu.au/onlinedegrees

* Engineering is offered online at UniSA with practical sessions at the Mawson Lakes campus. While no on-campus classes are available in Whyalla, there is a dedicated space available for engineering students to collaborate with other regional peers.
Improving student experience

Almost $400,000 in funding through Health Workforce Australia has been invested in upgrading Whyalla’s health laboratories providing advanced simulation facilities that optimise students’ clinical training experience.

A new simulated classroom, the first of its kind for UniSA, is available for Bachelor of Education students to practice in-class activities like displaying student work and using smart boards.

New connections

As part of the $22 million federally funded UniSA Regional Connections project, the Whyalla information and communications technology capacity has been upgraded and is connected to the Australia’s national research and education network via AARNet.

The upgrade has delivered one of the fastest network systems in Australia today and ensures regional and rural students have access to the same resources available at metropolitan campuses.

Community engagement

UniSA engages with the regional community in Whyalla in a number of ways. One significant ongoing partnership is with the Department of Rural Health (DRH) based at the Whyalla campus. The DRH provides rural health research opportunities and placement opportunities for health students, and is supported by the Australian Government’s Department of Health.

UniSA College’s Connect Team runs a range of programs to bring secondary educators, university teaching expertise, and students together in an engaging and dynamic environment.

UniSA also partners with its local community to provide support and sponsorship to a variety of community groups, events and expos including SciWorld Sunday, health fairs and Mental Health Week. We also sponsor local sporting groups and community arts programs.

Whyalla Open Day

Come to the Whyalla campus to explore the facilities and speak to current students and academic staff at Open Day. It’s a great chance to ask questions about any of the University’s programs, student life and support services.

Sunday, 28 August 2016
111 Nicolson Avenue
Whyalla

unisa.edu.au/openaugust
On-campus accommodation

Our Whyalla campus offers on-site accommodation at the Student Residential Village. The ground floor units cater for students to have their own room, and a shared bathroom with one other student.

A fully furnished kitchen and common living area means you can study with other students, or practice your cooking skills. Lecture and tutorial rooms are a short walk away and the complex is regularly monitored by security officers. A BBQ and volleyball court help create a fun and balanced student lifestyle.

Applications are accepted for short and longer term stays at a very affordable cost. Find out more at unisa.edu.au/studentvillage
Mount Gambier: a thriving learning hub

Study on the picturesque Limestone Coast, in the state’s largest regional city.

Established in 2005, UniSA’s Mount Gambier Campus is a reflection of an ongoing commitment to the region, community and the strong collaborative partnerships we have developed.

We focus on quality teaching and learning, and are committed to producing graduates who can make a difference to the vibrant Mount Gambier community.

Located close to the vines of the Coonawarra wine region, the ancient majesty of the Naracoorte Caves and the coastal village of Robe on the Southern Ocean, the town itself offers a rich arts and cultural scene, and a range of sporting activities.

Situated an equal distance between Adelaide and Melbourne, the campus is often a choice for rural and regional students in South Australia and Victoria.

“UniSA’s Mount Gambier campus has expanded to include fabulous new facilities to improve learning opportunities and allow more students to stay regional.”

Associate Professor Judy Nagy
A/Dean Teaching & Learning Regions and Regional Manager Mount Gambier
What you can study

Programs offered at Mount Gambier reflect the needs and priorities of the regional community:

> UniSA Foundation Studies

> Education (Early Childhood)

> Education (Primary)

> Music through James Morrison Academy of Music

> Nursing

> Social Work

For further program information please see page 21.

In addition to the on-campus degrees offered at Mount Gambier, UniSA also supports external learning in other partially and fully-external programs offered at metropolitan campuses. Local external students are encouraged to use campus facilities including computer pools, library and meeting spaces.

The right fit for success

Danielle credits the success she has achieved in her nursing studies to the supportive environment at UniSA. The Mount Gambier local has excelled academically through the Foundation Studies pathway to the Bachelor of Nursing, to then be awarded a Margaret Grace McNair AM Foundation Prize in 2015.

“Clinical placements were some of the most challenging but rewarding times of my study. It is one thing to assess a situation in a controlled skills lab using simulated patients with a clear cut set of symptoms, but it is a completely different experience dealing with a real life deteriorating patient,” Danielle says. “Placements let me experience nursing in the real world and enabled me to take what I had learned in class and from text books to the clinical setting.”

“Small class sizes meant that we gained extra time with our lecturers and being located in Mount Gambier meant I didn’t have to move away from my family and job. I believe UniSA lecturers, services and facilities are some of the best in the country, and it was the ideal place for me to achieve my academic goals.”

Danielle Przibilla
Bachelor of Nursing, Foundation Studies
New Mount Gambier Learning Centre

In 2016, we opened the new Learning Centre. The centre has specialist teaching facilities to support nursing and social work programs, with treatment rooms modelled on the new Royal Adelaide Hospital and the Mount Gambier Hospital, allowing students to learn in real-world scenarios.

Five flexible general teaching spaces and two active teaching rooms with large screens are connected to the latest technology available. A central piazza hub for informal learning and socialising completes the space, and adds to the student experience on this campus.

This 2,500 square metre building has a 120-seat civic lecture gallery designed for dual use by UniSA students and the Mount Gambier community, with a link through to TAFE SA and accessible car parking.

For more information about the facility visit

unisa.edu.au/openaugust
Prioritising the region
UniSA has dedicated $12 million in funding from the Federal Government to expand our physical footprint in Mount Gambier as part of the $22 million UniSA Regional Connections project.

Community engagement
UniSA College’s Connect Team are initiating a range of programs to bring secondary educators, university teaching expertise, and students together in an engaging and dynamic environment.
UniSA partners with local community organisations such as the City of Mount Gambier and Grant District Council, St John’s Ambulance and SAPOL to address community needs as well as supporting and sponsoring the Rotary Careers Expo, Generations in Jazz, local health fairs and school awards.

Student learning spaces
Access to new high-speed fibre optic infrastructure, gives students the same UniSA curriculum and teaching resources as those studying in Adelaide. Collaborative learning spaces and modern teaching facilities are linked through a central piazza where students can relax and interact.

All that jazz
A partnership with James Morrison Academy of Music, situated in the Old Town Hall building in the heart of the city, offers students a strong start in their music career. Enrol through UniSA to study a diploma or a Bachelor of Music specialising in jazz. Courses are taught by internationally-renowned jazz musicians from both Australia and around the world.

Watch the new Learning Centre launch video

Study away: in Adelaide

As a regional student, you can also choose to relocate and study at one of the city campuses, and UniSA is here to help with the transition.

The change from a smaller community to a larger capital city brings with it a number of new experiences. UniSA understands that this change is a big deal. Be prepared to seek help and ask questions as you go along so that you settle in to uni life as smoothly as possible.

Helpful hints for relocating to Adelaide

Before you arrive

Explore your study options
Visit our website to find out more about your study options at UniSA including what you will study, entry requirements, such as prerequisites and career outcomes, and much more.
unisa.edu.au/future

Scholarship opportunities
UniSA offers a wide range of scholarships including rural and regional specific grants, like the UniSA Rural Connect Scholarship, which assists students to fund their relocation costs. Research options early so you can apply for assistance.
unisa.edu.au/scholarships

Look into accommodation options
If you’re considering living in a residential college it is important to start the application process early. Our website details your accommodation options and provides details about our accommodation service to assist you to find the right living situation.

Once you have worked out the basics like where to live, how much you want to spend, and what type of dwelling, we have advisors and a rental database to help you search for a new home. Additional costs related to your accommodation and living situation are also to be expected.
unisa.edu.au/accommodation

Once you’ve made the move

Access the support services available
For any challenges you face from administration to accommodation issues, personal health to essay writing, UniSA has support services for you. Your local Campus Central or online services, can help direct your question.
unisa.edu.au/studentservices

Find your way to uni
It is important to plan how you will get to uni. You can make the most of Adelaide being a smaller capital city and drive, cycle or catch public transport to your campus. Parking at the suburban campuses is very cheap, and bike storage and showers are available at all campuses. A Campus Connector bus service also runs between Magill and Mawson Lakes campuses.
unisa.edu.au/campusfacilities

Plan your career
Part-time or full-time work can assist with financial obligations but can also provide opportunities to develop skills and gain experience in the workforce. Student services can assist you to find paid work or unpaid volunteer and internship opportunities that will help you get experience in your chosen field. Towards the end of your studies or when you graduate, services like Your Career Service can help you find your first professional job, so start using them early.
unisa.edu.au/careers

Consider a student exchange
Get more than just a university education while you’re at UniSA and consider a student exchange, global volunteer program, field placement, or leadership program overseas. Travel grants are available, and links to international institutions can lead to further study or even employment opportunities in another country.
unisa.edu.au/globalopportunities
Make study work for you

Jess McMullen chose to study her first year of a double degree in property and management at UniSA externally from Whyalla, while working in the office of her family’s construction business. “Studying externally taught me great time management skills and required high levels of self-motivation. It was a great foundation for the rest of my degree,” Jess explains.

Jess chose to move to Adelaide for her second year to study with other business students on campus. “I love being on campus at UniSA, getting involved in events and other social groups.”

“After graduation I see myself working in the property industry in either commercial/industrial sales or valuation. I believe UniSA has provided me a great environment to develop excellence by both theory and practical learning and I aim to maintain this level of quality in my future career,” Jess says.

Jess McMullen
Bachelor of Business (Property), Bachelor of Business (Management)
A study
seachange

Kemal Brkic has already had one career he was passionate about, working for Victoria Police at the Dog Squad. After 13 years, Kemal decided to pursue a different path, and moved back to his home town to study full-time at UniSA and become a primary school teacher.

“I love being back with family, it’s peaceful here and I live only one kilometre away from uni. I can certainly see a future staying and teaching here.”

“I feel much more prepared now at my age than I was leaving high school. At that age all I wanted to do is see and experience the world. I know so much more now. It’s not going to be easy, full-time study is like having a full-time job; however I know the rewards will come.”

Kemal Brkic
Bachelor of Education (Primary)
Start your journey with UniSA

At UniSA we’ve got all the tools to help you shape your career direction.

Research careers and stay in touch
Let us do the hard work for you and sign up to receive regular emails reminding you about events, work experience opportunities, and updates on career and industry news specific to your area of study. Visit the UniSA website for an overview of key information events, useful links, and brochures to download to help you start planning for university.

Apply through SATAC
For most undergraduate and postgraduate programs you need to apply through the SATAC website. All the details you need about application requirements, deadlines and available UniSA programs is available online.
unisa.edu.au/apply

For any further questions on studying with UniSA, speak to Future Student Enquiries by calling 08 8302 2376 or submit an enquiry:
unisa.edu.au/enquiry

Moving to a region
The lifestyle you experience in a regional town is quite different from being in a capital city. Smaller towns have a sense of community that can mean you make easier connections with your peers and enjoy a more inclusive environment. Students at UniSA’s regional campuses experience the same flexible learning and quality teaching as students at city campuses, with the benefit of the relaxed lifestyle, strong community engagement, relevant practical opportunities, small class sizes and tailored support services.

Considering the benefits, students who want to work in a regional setting can best prepare for their career by studying in a regional community. Whether you are from regional South Australia, or somewhere else in Australia, you will be welcomed at any UniSA campus.
Your life at UniSA

Student life is not just lectures, tutorials, assignments and formal learning; there are many other activities to add to the list:

**Student experience:** tap into a range of social activities, clubs, volunteering opportunities, cheap breakfast on campus and even free movies – and your own student association.

**UnISA Sport:** be part of a team at uni, challenge yourself, meet new people and take part in sporting events like the Australian University Games or Team UniSA Bay to City.

**Student Services:** there is always a solution to your study-related or personal challenges. Advice and support is available on campus or online at UniSA to get you back on track.

**Global opportunities:** add a global perspective to your university time with a student exchange, study tour, or short-term program at one of our international partner institutions.

**Volunteering:** give back to your community and use your developing skills by volunteering in a local organisation. Boost your resume and meet new people while making a difference.

**Tips for successful students**

We asked current students about what makes a successful student, and here are some hints:

- **Develop self-study habits:** Learn how to motivate yourself to start and finish your readings, exercises, essays and exam study – doing the work is the key to university study.

- **Set up space and time to study:** Have a dedicated space with a desk, away from housemates, siblings, children and social media, so you can form good study habits.

- **Stay positive:** You may receive a poor grade or get overwhelmed by work, study and life commitments, but there is always a solution. Seek help from support services early.

- **Talk about your study:** Share your successes and failures with your support networks at home and at university, so you can learn from each experience.

- **Manage your work/life balance:** Avoid over-committing to work and study loads, and better manage your deadlines, with the help of on-campus and online support resources.
