# Career information sessions

Our suite of careers and university admissions presentations and campus tours are designed to provide valuable information for students about planning for the future.

## Year 10 presentation
**Where:** At your school or on campus  
**Duration:** 30 - 45 minutes  
**Audience:** Year 10

This presentation looks at personal attributes that may impact on students' career decision making and introduces students to university study and factors that should be taken into consideration when looking at tertiary study as an option. We explore a typical week in the life of a university student highlighting the key differences between school and university.

**Incorporate MyCareerMatch into your Year 10 presentation**

MyCareerMatch is an online career profiling tool for schools to use free-of-charge through sponsorship from UniSA. MyCareerMatch provides students with a personalised career report outlining information about their personality style and a list of career options complementary to their natural strengths and talents.

## Year 11 presentation
**Where:** At your school or on campus  
**Duration:** 30 - 45 minutes  
**Audience:** Year 11

This interactive presentation is designed to test student knowledge about university study including what life as a university student is like and the differences between school and university. We discuss things to consider when researching and choosing a university degree and provide an overview of the SATAC application process to assist students with their transition to Year 12 and to help them gear up for life beyond school.

## Year 12 presentation
**Where:** At your school or on campus  
**Duration:** 30 - 45 minutes  
**Audience:** Year 12

The Year 12 presentation offers a comprehensive overview of study options at UniSA and covers important information about the application and admissions process including bonus points and pathway options. The presentation content uses examples to clearly outline entry requirements, important SATAC dates, support services and scholarship and accommodation information.

## Custom presentation
**Where:** At your school or on campus  
**Duration:** 30 - 45 minutes  
**Audience:** Year 10, 11 or 12

Presentations can be customised depending on the audience. We have specialist teams available who can deliver a specific presentation for your students including:

- International students
- Students considering alternative entry options / pathways into university
- Indigenous students
- Regional students

We can also facilitate guest speakers in a range of academic areas. Contact us to discuss your requirements.

---

**Campus tours**

**Where:** On campus  
**Duration:** 60 minutes or 90 minutes if combined with a presentation  
**Audience:** Year 10, 11 and 12

Campus tours are a great way to give your students an insight to life as a UniSA student as they explore modern student spaces and outstanding teaching facilities.

Join us for a tour of our City West campus, located in the heart of the West End Precinct, as we explore the Jeffrey Smart Learning Centre, recently opened Student Lounge, Art, Architecture and Design Workshops, Moot courtrooms, and more.

For students interested in a particular discipline or keen to explore one of UniSA’s other campuses please visit our website.

---

**Careers evenings or expos**

**Where:** At your school

UniSA staff and current students are available to attend career sessions at your school. We can deliver a tailored presentation, or simply talk to students and parents about study and career options at UniSA.

---

**Parent information sessions**

**Where:** At your school  
**Duration:** 60 minutes or 90 minutes

This presentation assists parents and/or caregivers in gaining a better understanding of the differences between secondary school and tertiary education. Based on questions most frequently asked by parents, the session outlines the university application and admissions process, pathway options and transition and support services.

---

**Can’t get to a UniSA campus?** We now offer our full suite of presentations online via video conferencing. Contact us to find out more.
If your school is visiting the Year 12 SACE Art Shows then our Art on Show tours could be a great addition to their experience.
Health Sciences

Chemistry workshop

Where: City East campus
Duration: 60 minutes
Audience: Year 11 and 12

The Chemistry workshop will showcase the ways chemistry is applied in popular career settings, revealing its use in a variety of different fields. Students will see beyond the idea of the traditional ‘scientist’ in a laboratory, and demystify the application of chemistry in real-life situations. Within the Chemistry workshop, students can gain an understanding of the chemistry behind drug formulation by making zinc cream in our modern purpose-built Pharmacy Lab, learn how to identify drugs using chromatography techniques, discover the behaviour of materials through rheology – while making their own slime or see how chemistry is applied to the creation of food in a lolly making activity.

Biology workshop

Where: City East campus
Duration: 60 minutes
Audience: Year 11 and 12

Biology can be incorporated into a variety of different professions. During this workshop, students can learn how to identify blood types, gain a greater understanding of human biology through the examination of both healthy and diseased tissue specimens or see firsthand how physiology and biology are connected through a blood pressure activity. Students will see how studies in biology link to a range of careers, including exciting areas in medical science.

Physical Education workshop

Where: City East campus
Duration: 60 minutes
Audience: Year 11 and 12

Physical activity has a significant impact on the biological, psychological and social parameters of human life. Students can visit our state-of-the-art High Performance and Exercise Physiology lab, adjacent to our gymnasium) and see how our accredited exercise physiologists use the delivery of exercise-based lifestyle and behaviour modification programs to prevent and treat injury and chronic diseases. Students can also become involved in the practical training and testing that is used with elite athletes to help improve their performance or use modern equipment to develop exercise and training programs in our biomechanics, environmental chamber and strength and conditioning laboratories.

Unique Opportunities

The University of South Australia’s City East campus is commonly known as the Health Hub, home to our health and medical science programs. Featured throughout the campus are various state-of-the-art teaching facilities and laboratories, including our high tech Virtual Environment Radiotherapy Training (VERT) suite, fully functioning X-Ray suites or our purpose built hospital wards including our Emergency Department and Midwifery and Paediatric Units, plus much more. Students can have the opportunity to participate in a variety of interactive activities within these modern teaching facilities on campus, giving a unique insight to the diverse careers available as part of the expanding health industry.

Information Technology

IT workshops

Where: Hawson Lakes campus or at your school
Duration: 60 minutes
Audience: Year 9, 10, 11 and 12

Our lecturers in information technology have put together a series of practical workshops to give students an insight into some of the areas that will form the basis of computing and IT in the future. These workshops can be taken as single offerings or together with other IT workshops.

Workshops offered:

> Think like a gamer in the gaming workshop, by learning the best ways to engage players in new games (Dr Stewart von Itzstein).
> In the Robot Battles workshop, students use Java to develop a robot tank and battle with other teams in an on-screen area. They will learn the basics of programming with RobotCode, and are introduced to artificial intelligence (Dr Adam Jenkins).
> Customise an existing app for a mobile device to understand the basics of app design, in the Game App makeover. Change colours, fonts and styles and then copy it to your Android to take home (Dr Grant Wigley).
> In the Inside-Out PC workshop, open up the lid of a PC and disconnect the memory, CPU and disk to identify what each part does and to understand how current computers work (Dr Grant Wigley).
> Stop hacking or important data being stolen or modified, as you configure a wireless network ensuring all security precautions are taken in the Wi-Fi Safe workshop (Dr Grant Wigley).

Workshops can be taken together with other IT workshops.

Career support and resources

For teachers

Professional development opportunities and resources

Training for PLP teachers
(5 people)
UniSA’s 90-minute PLP training session will provide PLP staff with important information and tools to assist students considering a university pathway. Attendees will learn about the process of applying to university and factors to take into consideration when researching tertiary study and selecting subjects. For more information contact the UniSA Student Liaison Team.

Career Adviser Information Session
Attend UniSA’s Career Adviser Information Session to find out about the latest UniSA initiatives and new program information. You will also get a chance to hear from key university staff, as well as collect copies of the latest discipline brochures. All high school career advisers will be sent an invitation to attend the event early in the year.

RiAus
UniSA proudly supports RiAus - Australia’s science channel, promoting public awareness and understanding of science. RiAus makes science fun, inspiring and accessible for all Australians. RiAus produces thought-provoking and entertaining events, broadcasts and publications as well as education and teacher support programs. Visit RiAus.org.au to discover the wonders of science.

UniSA Master of Education
If you are a professional educator wanting to expand your knowledge and progress into leadership roles, this 18-month program is designed for you. This flexible program that can be studied online will further develop your capabilities in a range of areas including assessment and evaluation, educational leadership, inclusive education, digital technologies and literacy or numeracy education.

For information on this and other postgraduate programs visit unisa.edu.au/EASS-postgrad

For bookings visit unisa.edu.au/schools/PO

For students

Phone and online enquiries
The UniSA Future Student Enquiries Team is available from Monday to Friday 9am-5pm to provide admissions and program advice to prospective students. Students can contact the Future Student Enquiries Team via phone (08) 8302 2376 or submit an online enquiry.

Visit unisa.edu.au/enquiry

Brochures
UniSA’s comprehensive range of brochures contain information about our programs, pathways, services and scholarships, as well as undergraduate program brochures providing details of specific programs, student testimonials and possible employment outcomes. Students can download a copy of these brochures on our website or contact our Future Student Enquiries Team to request a hard copy.

Visit unisa.edu.au/brochures

MyCareerMatch
By completing a MyCareerMatch profile students will receive a personalised career report outlining information about their personality styles and a list of career opportunities complementary to their natural strengths and talents. Students will also have access to useful resources including a student workbook, parent, resume and interview guides. These reports are available free through UniSA sponsorship and can be incorporated into a year 10 presentation.

Visit unisa.edu.au/mycareer

Website
The UniSA website provides detailed information about studying at the University of South Australia. Students can navigate through our newly designed Study at UniSA website exploring our wide range of programs, campuses and facilities, student experiences and services, and how to apply to university, as well as downloading a range of useful resources.

Visit unisa.edu.au/future

Events
Students have the opportunity to attend information events throughout the year and speak with UniSA staff and current students about courses, careers, pathways and university life. Each year UniSA also offers students the opportunity to experience a day in their dream career with our ‘Day in the Life of a UniSA Graduate’ competition.

More information can be found at unisa.edu.au/events

Services for Schools

Support for UniSA Students
At UniSA we have a wide range of support services available to current students to help them succeed and assist with the transition from high school to university. There are personal, academic and social support services including student associations, study assistance, accommodation and disability services and a dedicated office on each campus providing advice on enrolment, fees and timetables.
