Following his passion for music and performing arts, Brodie decided to study a Bachelor of Arts.

“The beauty of music is that it can be as complex or as simple as you make it. You can spend days upon weeks theorising about music, or just play something you think sounds cool. It’s because of that, that I want to pursue a career in music.

“University is a great way to connect. By working with people from a variety of different backgrounds and demographics, I’ve created long lasting friendships with people that are passionate about the same things I am.”

After completing his degree, Brodie would like to continue his studies to become a secondary music teacher.

INDUSTRY insight

“My advice is to look for internship and mentorship opportunities. I wouldn’t be where I am today if someone didn’t give me a go. This is a great way to break into the industry, make connections, network, and possibly tee-up some paid work in the future. Take advantage of the knowledge that is out there.”
