While in year 12, I wasn't ready to move out of home or leave my community in Port Lincoln, but I also didn't want to study externally. The Whyalla Campus provided the perfect alternative because I was able to study in person and go home on weekends. The on-site accommodation has given me the opportunity to experience elements of living independently and I have met the most incredible and welcoming people.

*What I loved most about studying at UniSA was the incredible staff, especially those that work at the Whyalla Campus and the facilities we have available. The main reason I'd suggest studying regionally is the class sizes. You have more opportunity to get to know your tutor and are provided with a bit more support.*
