

CSIRO Postgraduate Scholarships

The CSIRO Postgraduate Scholarship Program provides opportunities in science and engineering for outstanding graduates at Australian tertiary institutions.

www.csiro.au

Each year, the Program supports postgraduate scholarships for students to work on a project relevant to one of several priority research areas. Students are co-supervised by researchers in an Australian university and CSIRO.

Top-up PhD Scholarships are available to PhD students who have gained (or expect to gain), first class honours or equivalent in relevant research areas. Students must also expect to receive an Australian Postgraduate Award (APA) or equivalent scholarship commencing in the year of the CSIRO scholarship. Full scholarships may be available in certain circumstances.

HOW TO APPLY

Applications are being sought in nominated priority research areas for the 2016 program and will support a number of new PhD Scholarships.

For details on the opportunities available please visit: www.csiro.au/Postgraduate-Scholarships

Applications are now open and close on 30th October 2015.
