

07 February 2022 5.00pm

All student email from Professor David G. Lloyd, Vice-Chancellor and President

As we continue to be affected by COVID-19 I wanted to provide you with an update on the University's operations for the upcoming study and research periods.

Our priority, as always, is to deliver high-quality on-campus experiences and a safe and inclusive working environment for us all. Given South Australia's diminishing case load and high vaccination rates, I'm pleased we can now begin reducing some of the existing restrictions, and ask that you familiarise yourself with the following arrangements.

Teaching, Learning and Research Activities

- Lectures will remain in online delivery mode, and where possible all other teaching, learning and research activities (e.g. tutorials, workshops, studios, practicals) will be conducted in 'COVID-safe' face-to-face on-campus delivery modes.
- Your course coordinators will confirm the teaching arrangements with you via email this week – please regularly check your myUniSA email and learnonline for the latest updates.
- Please also monitor your myUniSA email for news about orientation activities, and upcoming opportunities to engage and connect with fellow students and UniSA's services.

Campus Access and Protocols

- COVID-19 management protocols will be in effect, however UniSA ID swipe card access will no longer be required to enter common facilities.
- We encourage you to 'check in' using the [SafeZone](#) app.
- All students, staff and visitors will still be required to wear facemasks **in all** indoor communal university settings – including all library, laboratory, teaching, learning and research facilities, indoor public areas, shared or open plan office, meeting or administrative areas.
- Facemasks (Detmold level 3 surgical grade) are available for all staff and students from [Campus Central](#) and [FM Assist](#).
- We will continue to manage COVID-19 in accordance with all applicable health regulations and advice, and, as always, we will continue to adapt to the external environment as appropriate.
- If you feel unwell, please do not come on-campus. Please do look after yourselves, and please do ensure you are fully vaccinated.
- If you have any questions, please visit our [FAQs](#) or contact [Campus Central](#).

On behalf of all UniSA staff, we look forward to seeing you on campus soon.

Best regards,
