

**March 24, 5.21pm**

**All staff and students email from Professor David G. Lloyd, Vice Chancellor and President**

Dear colleagues and students,

I write to inform you that the University today received notification that one enrolled student in our community has returned a positive test for COVID-19.

Our number one priority is the health, safety and wellbeing of our students, staff and the entire University community. Our thoughts are with our student, who is well and is now in self-isolation and under the care of SA Health. The University has been in contact with the student to offer appropriate support.

The student attended our Magill campus last week before being diagnosed.

The University has provided SA Health with all relevant class lists and has also directly contacted staff and students where contact may have occurred during this period.

The University continues to work with SA Health to ensure the health and safety of all our students, staff and the wider community. The current global health crisis is continually evolving. We will continue to follow and act on all current health advice and guidance.

All necessary cleaning protocols have been enacted and the campus remains open.

In a community as large and diverse as ours, it was inevitable that an instance of COVID-19 exposure would present in time. Please be assured that all appropriate protocols have been activated. This is a time for us to act as a community, to follow official health advice, to remain connected and to support one another.

If you have questions or concerns, please first visit the staff and student FAQs on the [COVID-19 coronavirus information webpage](#). This is the most up-to-date and informed repository of University COVID-19 resources.

As always, I re-iterate the current public health advice – **if you are feeling unwell, please do not attend at the university until fully recovered**, seek the appropriate medical advice as required and act to minimise the risk of infection for others.

For any student enquires relating to health and wellbeing please contact [seu@unisa.edu.au](mailto:seu@unisa.edu.au) for assistance, advice and support. Staff may also contact [seu@unisa.edu.au](mailto:seu@unisa.edu.au) if they have any questions or concerns regarding a student's health or wellbeing.

Staff members with any questions are asked to please contact your local [People, Talent and Culture Business Partner](#) or email [PTC@unisa.edu.au](mailto:PTC@unisa.edu.au).

So, as is needed in these uncertain times, I ask for your continued patience, pragmatism, calm and collegiality.
